

## Liam A. Wallace

Patent Technical Specialist

Charlotte, NC  
(704) 347-6430

Liam Wallace is a patent technical specialist primarily focused on supporting the firm's Intellectual Property practice group. He has experience and knowledge to assist attorneys in numerous fields, including the automotive space, telecommunication systems/methods, and tool construction/operation industries.

Liam's main roles involve using his knowledge to create detailed technical analyses of, and executing effective responses to, office actions issued by the USPTO. He also prepares new patent applications and collaborates directly with inventors and outside counsel while doing so.

Prior to joining Burr and Forman, Liam worked at the US Patent and Trademark Office as a patent examiner. He utilizes his patent examination experience, as well as his engineering education, to expedite and improve our patent prosecution. Before entering the Intellectual Property industry, Liam graduated from Duke University with a bachelor of science in biomedical engineering.
